A BRIEFING FOR ASSOCIATIONS

Confirm your members faster. Show parents who is genuine.

SkoolRun is a South African app that helps parents find school transport they can trust and helps operators run their business. The Association Programme gives your association a quick way to confirm who your members are, and lets parents see who is affiliated.

- Quick member confirmation
- Parents see who is affiliated
- Your member details stay private

Built in South Africa for the school run

WHY IT MATTERS

A scholar transport sector that is easy to recognise.

Operators who do things properly deserve to be seen as different.

Parents ask who they can trust. Schools get the same question. Associations are the bodies that know which operators are genuine, but today that knowledge sits in registers, phone calls and WhatsApp groups. SkoolRun puts it where parents already look, and keeps it up to date.

A verified member register

Each member's operating licence, vehicle papers and driver documents are checked by SkoolRun staff, and your association confirms who is genuinely a member.

Parents see who is affiliated

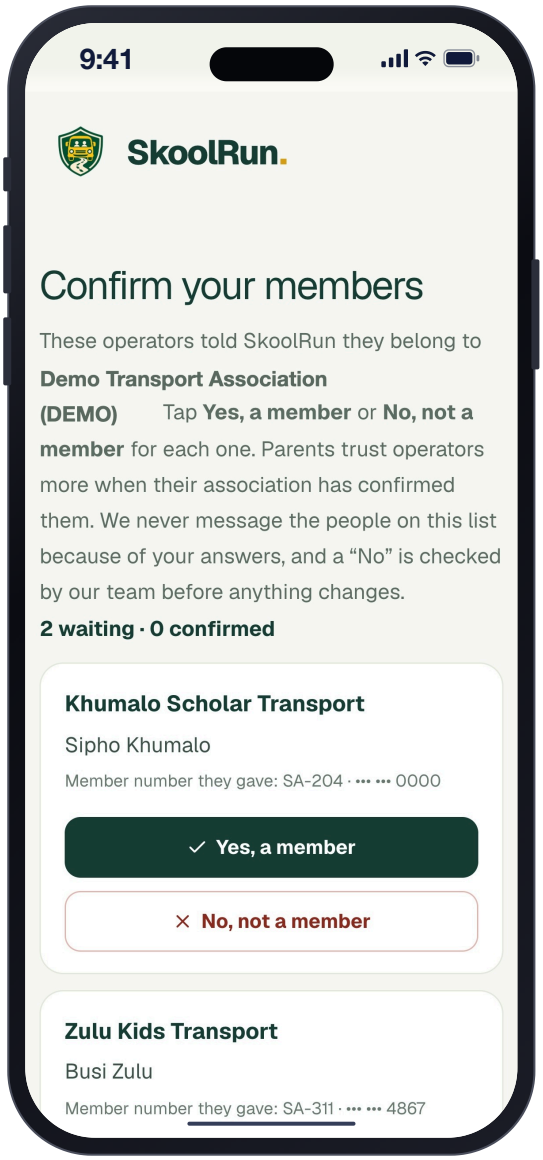

When an operator is confirmed by your association, parents see that affiliation next to the green tick.

Compliance kept current

Members are reminded when a licence or document is about to expire, so fewer are caught out and the register stays honest.

A record of every run

The app records each run: when it started, who was picked up and who was dropped off. A member can show that a run was completed.

How your committee confirms members

Demo screen with made-up names: not real.

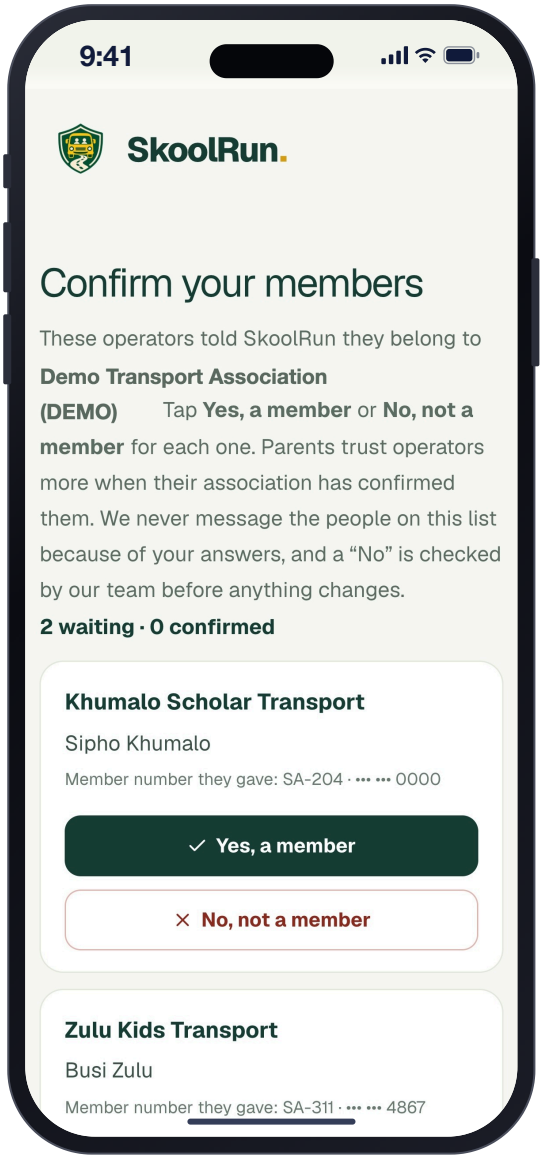

MEMBER CONFIRMATION LIVE

Confirm members in minutes, not weeks.

A short list, a Yes or No, no new system to learn.

1. **You tell us who speaks for the association:** a secretary, chairperson or another named person, and the number or email we should use.
2. **We send a private link** by email or WhatsApp. It lists the operators who say they belong to your association.
3. **Your committee taps Yes or No** for each one. No account and no password are needed.
4. **Confirmed members show as affiliated** to parents and schools. Operators who are not members are never shown as yours.
5. **You stay in control.** You can change an answer, and new members can be confirmed in the same way at any time.

Operators who are not in an association yet. We help them find one near their area or school. Your association can be where they land.

The confirmation page your committee sees

Demo screen with made-up names: not real.

What it means for your committee

Quick

A list and a Yes or No, instead of chasing paperwork.

Accurate

Only members you confirm are shown as yours.

Private

Parents never see your member list, only who is affiliated.

WHAT YOU GET

Benefits for your association and your members.

Some are live now. Others we are building with associations.

For your association

- Quick, simple confirmation of your members
- Your affiliation shown to parents and schools
- A current picture of how many of your members are verified
- A direct contact at SkoolRun for your committee
- Operators looking for an association are pointed to you

For your members

- A green tick and your association's name, which parents notice
- Their own page and QR code on the vehicle sticker
- Reminders before a licence or document expires
- Tools to run routes, invite parents and keep records
- Parents who find them because they are verified

Coming next, designed with associations COMING NEXT

A sector summary

A simple, anonymous overview of verified operators, routes and learners moved, to support your discussions with government.

Evidence pack for members

A dated record of a member's routes and completed runs that they can print and show an authority or a school.

Your training and standards

A place to list the training and standards your association requires, so members and parents can see them.

An incident record

A simple way for members to record an incident with a date and details they can take further.

Being honest. SkoolRun does not run training, set transport policy or represent members to government: that is your work. We provide the verified record and the tools around it.

GETTING STARTED

Join in a short conversation.

No forms to fill before we have spoken.

1. **Reply to our message or contact us** on the details below.
2. **A short online meeting** with your committee, about 20 minutes, to show the app and answer questions.
3. **Tell us who speaks for the association** and how to reach them.
4. **Confirm your members** with the private link. We help with the first batch if you like.

Questions associations ask

Do you replace the association?

No. Membership, standards and representation stay with you. SkoolRun confirms who is affiliated and shows it to parents.

Who sees our member list?

Parents and schools see only that an operator is affiliated with your association, not the list itself.

Do members have to change how they work?

No. They add their documents and run their routes. Members who already use SkoolRun are matched to you by their association name.

Can we speak to someone first?

Yes. Email or WhatsApp us and we will arrange a time that suits your committee.
